

Membership application for the FILD

federation of international
lighting designers

Dear Applicants,

the Federation of International Lighting Designers, which was founded to promote and support the improvement of lighting design in the field of architecture and the built environment worldwide, invites lighting designers and students of lighting design to apply for membership of the association. Only through a careful examination and classification of the members of the association is it possible to achieve the above stated goal. Therefore the examination and classification of the applicant has the objective to assess how much knowledge and skills an applicant has within the field of lighting design. It also enables the applicant to evaluate in which areas he or she may need to acquire more knowledge and/or skill to advance in the profession of Lighting Design and achieve full membership of the association or if further education should be pursued.

Initially please read the constitution and the Code of Ethics carefully.

You can find both documents on our website www.FILD.eu.

To simplify and speed up the acceptance process we will at this stage only request basic personal data of all applicants. Please fill in the attached form entirely and attach a recent picture of yourself.

The board will carefully examine your application, our enrollment committee will determine if, and with what status you may enroll as a member of the Federation of Lighting Designers

This process may take up to 6 weeks. You will receive an official notice informing you about the result of your application. If you choose to apply for a full membership, we reserve the right to request further records regarding your experience and qualifications.

PRIVACY CLAUSE:

Your personal data (name, company, address, e-mail address, website, membership status) will be publically accessible on the website www.FILD.eu. Your picture will be published in the membership section of the website (which is password-protected and accessible for members only).

Any other data or information of yours will be treated confidentially and will only be used to assess in which membership category you will be placed. With this application you declare your agreement. Please approach us in written form if you are not content with the publishing of the above stated information.
